Does your child need a COVID-19 test? Get answers quickly.

As a student attending in-person classes at this school, your child has access to expedited medical evaluations and priority processing of COVID-19 testing through Lehigh Valley Health Network (LVHN). That means you'll receive your test results in 48 hours.* LVHN processes COVID-19 tests at HNL Lab Medicine allowing you to get answers quickly.

COVID-19 symptoms

To receive an expedited medical evaluation and priority testing, your child must have at least one of the following symptoms:
- Fever (temperature ≥ 100.4)
- Cough
- Shortness of breath or trouble breathing (more trouble than usual if a child has a chronic respiratory condition)
- Congestion or runny nose
- Chills or repeated shaking with chills
- Fatigue
- Unexplained muscle or body aches
- Headache (beyond prior history of headaches)
- Sore throat
- Nausea or vomiting
- Diarrhea
- New loss of taste or smell

Next steps

If you think your child may have COVID-19, contact his or her primary care provider or obtain an LVHN screening for the coronavirus online or over the phone.**

COVID-19 screening options:
- Complete an E-Visit (detailed questionnaire submitted to a provider) by going to MyLVHN.org or using the MyLVHN app.
- Call the MyLVHN Nurse Information line at 888-402-LVHN.
- Complete an LVHN Video Visit on the MyLVHN app.

During the screening a health professional will let you know if your child should receive COVID-19 testing. Testing for symptomatic patients is offered at LVHN Assess and Test locations throughout the region. Find an Assess and Test close to you by visiting **LVHN.org/SchoolPartners.**

TIP **If you don't see your child's name on your own MyLVHN account, you'll need to request proxy access from your child's provider or by calling 888-402-LVHN (5846). Proxy access lets you schedule appointments, check immunization records and set up LVHN Video Visits on their behalf.**

COVID-19 clearance testing

There may be times when your child does not feel sick but requires COVID-19 clearance. LVHN can help. Find clearance testing locations near you at **LVHN.org/SchoolPartners.**

MyLVHN mobile app

LVHN makes it convenient to view your test results. After your child's COVID-19 test, there's no need to wait for a provider to call you. You can view your child's COVID-19 test results and quarantine instructions as soon as they are available on the MyLVHN patient portal. If your child receives positive test results, a nurse will contact you to provide additional guidance. Read more about MyLVHN at **LVHN.org/MyLVHN.**

* Individual result times may vary depending on lab volumes and national COVID-19 cases.
** You must be in the state of Pennsylvania to receive screening due to medical licensing regulations.

Top Face Mask Tips for Kids

SNUG FIT!
Masks should fit snugly against your child's face and cover the nose and mouth.

NO VENTS!
A vent allows exhaled air (and germs) to travel into the air that others breathe.

RIGHT FABRIC!
Masks should be at least two-ply and made of a breathable fabric that is not sheer.

School staff can get expedited testing too. Just tell your provider that you work for this school. Learn more about testing and care at **LVHN.org/COVID19.**
