District Guideline for: Attendance of Students Who Plan to Move into the District (Policy 200)

Students whose parents or guardians have executed a contract to buy or build a residence in the district for occupancy within 60 school days may be enrolled without payment of tuition for the 60 school day period prior to the anticipated date of residency. If the child does not become a resident by the end of the free tuition period, tuition will be charged from that date onward, and parents must demonstrate proof of final residency. The board reserves the right to verify such claims and to remove from school a non-resident student whose claim is invalid. No transportation is provided to a student living outside of the district boundaries.
