Southern Lehigh School District Community Announcement

June 24, 2024

In the coming weeks, Southern Lehigh School District will switch to **Infinite Campus**, its new student information system. The system will provide a significant upgrade in how our school community communicates. Parents and students will have access to new mobile apps. District announcements such as email and texts will be made through the Infinite Campus system. To learn more about Infinite Campus, [check out this link](#).

There is nothing for our families to do right now. Data from our former system has been transferred to Infinite Campus. Once Infinite Campus becomes fully operational, an email will be sent out to all district families with additional information and instructions.

If you have had any changes in the phone number or email address that the district has on file for you, kindly let the main office of your child's school know.

Another update about Infinite Campus will be sent out in early July. Until then, best wishes to all for a great summer.

Thank You!
